Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$362
Assay of urea nitrogen	\$31	100%	Average Negotiated Charge (Payment) / Visit	\$57
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Routine venipuncture	\$18	100%		
Assay of creatinine	\$31	100%		
Lipid panel	\$71	50%		
Assay blood carbon dioxide	\$35	50%		
Assay of blood chloride	\$35	50%		
Assay of serum potassium	\$35	50%		
Assay of serum sodium	\$35	50%		
Assay of protein urine	\$29	25%		
Assay of serum albumin	\$42	25%		
Assay of calcium	\$30	25%		
Electrolyte panel	\$23	25%		
Assay of urine creatinine	\$70	25%		
Glycosylated hemoglobin test	\$113	25%		
Assay of parathormone	\$252	25%		
Assay of phosphorus	\$37	25%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Assay of magnesium	\$49	10%		
Assay of phosphorus	\$37	10%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$156
Assay of blood/uric acid	\$26	100%	Average Negotiated Charge (Payment) / Visit	\$41
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Renal function panel	\$49	60%		
Assay of urine creatinine	\$70	40%		
Assay of magnesium	\$49	40%		
Assay of protein urine	\$29	40%		
Assay of urine sodium	\$37	40%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$52
Complete cbc w/auto diff wbc	\$52	100%	Average Negotiated Charge (Payment) / Visit	\$9
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Comprehensive metabolic panel	\$38	17%		
Routine venipuncture	\$18	11%		
Metabolic panel total ca	\$29	6%		
Lipid panel	\$71	6%		
Assay of ferritin	\$74	6%		
Assay of iron	\$88	6%		
Iron binding test	\$64	6%		
Assay of free thyroxine	\$86	6%		
Assay thyroid stim hormone	\$81	6%		
Prothrombin time	\$25	6%		
Rbc sed rate automated	\$25	6%		
Lyme disease antibody	\$32	6%		
Detect agent nos dna amp	\$348	6%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$197
Complete cbc automated	\$49	100%	Average Negotiated Charge (Payment) / Visit	\$66
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Routine venipuncture	\$18	65%		
Comprehensive metabolic panel	\$38	59%		
Lipid panel	\$71	35%		
Vitamin d 25 hydroxy	\$163	24%		
Assay of calcium	\$30	18%		
Assay of serum albumin	\$42	18%		
Assay of creatinine	\$31	18%		
Assay of iron	\$88	18%		
Assay thyroid stim hormone	\$81	18%		
Assay of urea nitrogen	\$31	18%		
Assay of ferritin	\$74	12%		
Assay of folic acid serum	\$134	12%		
Assay glucose blood quant	\$30	12%		
Assay blood carbon dioxide	\$35	12%		
Assay of blood chloride	\$35	12%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$25
Prothrombin time	\$25	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$156
Rbc sed rate automated	\$25	100%	Average Negotiated Charge (Payment) / Visit	\$26
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Complete cbc w/auto diff wbc	\$52	67%		
C-reactive protein	\$113	33%		
Routine venipuncture	\$18	33%		
Metabolic panel total ca	\$29	33%		
Comprehen metabolic panel	\$38	33%		
Assay of ck (cpk)	\$63	33%		
Assay of magnesium	\$49	33%		
Assay of psa total	\$104	33%		
Assay of blood/uric acid	\$26	33%

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$498
Allergen specific IgE	\$378	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Routine venipuncture	\$18	100%		
Assay of ige	\$50	100%		
Complete cbc w/auto diff wbc	\$52	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Payer United Healthcare

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$524
C-reactive protein hs	\$97	100%	Average Negotiated Charge (Payment) / Visit	\$152
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Comprehensive metabolic panel	\$38	100%		
Assay bld/serum cholesterol	\$29	100%		
Assay of lipoprotein	\$71	100%		
Assay thyroid stim hormone	\$81	100%		
Assay of triglycerides	\$44	100%		
Complete cbc w/auto diff wbc	\$52	50%		
Glycosylated hemoglobin test	\$113	50%		
Vitamin d 25 hydroxy	\$163	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,010
Immunofix e-phoresis serum	\$173	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	
Routine venipuncture	\$18	100%		
Comprehensive metabolic panel	\$38	100%		
Lipid panel	\$71	100%		
Assay iga/igd/igg/igm each	\$276	100%		
Assay nephelometry not spec	\$180	100%		
Assay of protein urine	\$29	100%		
Complete cbc w/auto diff wbc	\$52	100%		
Immunofix e-phoresis/urine/csf	\$173	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$285
Hepatitis c ab test	\$115	100%	Average Negotiated Charge (Payment) / Visit	\$53
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Routine venipuncture	\$18	57%		
Complete cbc w/auto diff wbc	\$52	57%		
Assay thyroid stim hormone	\$81	29%		
Comprehensive metabolic panel	\$38	29%		
Lipid panel	\$71	29%		
Assay of amylase	\$51	14%		
Assay of urine creatinine	\$70	14%		
Assay of ferritin	\$74	14%		
Assay glucose blood quant	\$30	14%		
Assay of iron	\$88	14%		
Assay of lipase	\$59	14%		
Assay of psa total	\$104	14%		
Assay of protein serum	\$29	14%		
Assay of blood/uric acid	\$26	14%		
C-reactive protein	\$113	14%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$247
Culture othr specimn aerobic	\$80	100%	Average Negotiated Charge (Payment) / Visit	\$28
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Cultr bacteria except blood	\$97	100%		
Smear gram stain	\$70	60%		
Lyme dis dna amp probe	\$97	40%		
Body fluid cell count	\$51	40%

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$74
Urine culture/colony count	\$74	100%	Average Negotiated Charge (Payment) / Visit	\$10
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Mumps antibody	\$132	17%		
Culture Aerobic Identify	\$86	17%		
Microbe susceptible mic	\$35	17%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$440
Hepatitis c revrs trnscrpj	\$422	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Routine venipuncture	\$18	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$342
Evaluate swallowing function	\$342	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$255
Electrocardiogram tracing	\$255	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$64

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,392
Cardiovascular stress test	\$1,392	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$293
X-ray exam chest 2 views	\$356	6%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,839
Ecg monit/reprt up to 48 hrs	\$654	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$123
Ecg monit/reprt up to 48 hrs	\$1,185	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,839
Ecg monit/reprt up to 48 hrs	\$1,185	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
Ecg monit/reprt up to 48 hrs	\$654	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,951
Tte w/doppler complete	\$2,951	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$1,862
Cardiovascular stress test	\$1,392	16%		
Ecg monit/reprt up to 48 hrs	\$654	5%		
Ecg monit/reprt up to 48 hrs	\$1,185	5%		
Stress tte only	\$1,312	5%		
3d render w/intrp postproces	\$524	4%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$5,085
Echo transesophageal	\$1,920	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*

Mod sed oth phys/qhp 5/>yrs	\$1,107	100%		
Mod sed other phys/qhp ea	\$486	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$98,611
Tx atrial fib pulm vein isol	\$38,608	100%		
General procedure services	\$5,645	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$43,252
General supporting services	\$5,537	100%		
Coagulation time activated	\$93	100%		
Electrophys map 3d add-on	\$3,939	100%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,204
Extracranial bilat study	\$2,204	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$1,339

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,272
Extremity study	\$2,272	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$1,425

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,285
Extremity study	\$1,285	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$308
Glycosylated hemoglobin test	\$113	2%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Vascular study	\$2,265	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$1,756
Transvaginal us non-ob	\$1,026	42%		
Us exam abdom complete	\$863	19%		
Us exam scrotum	\$813	16%		
Us exam of head and neck	\$723	6%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,266
Breathing capacity test	\$345	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
Co/membane diffuse capacity	\$487	100%		
Pulmonary compliance study	\$434	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,613
Evaluation of wheezing	\$692	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$297
Co/membane diffuse capacity	\$487	100%		
Pulmonary compliance study	\$434	100%		
X-ray exam chest 2 views	\$356	17%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Payer United Healthcare

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$6,135
Polysom 6/> yrs 4/> param	\$6,135	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$2,663

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Collect blood from picc	\$111	2%		
Comprehen metabolic panel	\$38	2%		
Extremity study	\$1,285	2%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$9,046
Ther/proph/diag inj sc/im	\$90	100%	Average Negotiated Charge (Payment) / Visit	\$4,335
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Office/outpatient visit est	\$164	27%		
Capillary blood draw	\$20	4%		
Comprehensive metabolic panel	\$38	4%		
Hemoglobin	\$29	4%		
Immunoassay tumor other	\$68	4%

Assay of ck (cpk)	\$63	8%		
Assay of creatinine	\$31	8%		
Assay alkaline phosphatase	\$31	8%		
Alanine amino (ALT) (SGPT)	\$42	8%		
Bilirubin total	\$63	8%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$22,762

Assay of acth	\$67	56%		
Collect blood from picc	\$111	56%		
Hydrate iv infusion add-on	\$588	33%		
Tx/pro/dx inj new drug addon	\$702	22%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,245
Ultrasound therapy	\$285	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$823
Therapeutic exercises	\$616	100%		
Manual therapy 1/> regions	\$179	50%		
Pt eval low complex 20 min	\$509	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,408
Therapeutic exercises	\$880	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$268
Manual therapy 1/> regions	\$627	36%		
Ultrasound therapy	\$95	18%		
Neuromuscular reeducation	\$652	18%		
Group therapeutic procedures	\$86	9%		
Pt eval low complex 20 min	\$509	9%		
Ot eval mod complex 45 min	\$572	9%		
Therapeutic activities	\$358	9%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,030
Neuromuscular reeducation	\$326	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Therapeutic exercises	\$704	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Self care mngment training	\$179	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,168
Manual therapy 1/> regions	\$537	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$333

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$864
Pt eval low complex 20 min	\$509	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
Therapeutic exercises	\$176	100%		
Manual therapy 1/> regions	\$179	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$572
Pt eval mod complex 30 min	\$572	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$150

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$509
Ot eval low complex 30 min	\$509	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$266
Therapeutic exercises	\$352	7%		
Self care mngment training	\$358	7%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Payer Connecticcare Exchange

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$358
Self care mngment training	\$358	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$288
Medical nutrition indiv in	\$288	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$147

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$62
Med nutrition indiv subseq	\$62	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$41

Office/outpatient visit est	\$164	100%	Average Negotiated Charge (Payment) / Visit	\$4
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Capillary blood draw	\$20	81%		
Prothrombin time	\$25	81%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Payer Cigna BH

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$189
Office/outpatient visit est	\$189	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$125

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$469
Office consultation	\$469	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospital observation per hr	\$3,658	22%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$687
Home sleep test/type 3 porta	\$687	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$157

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.
