DANBURY HOSPITAL CONSUMER SHOPPABLE TOOL
DISCLAIMER

Danbury Hospital has engaged a third party to assist in coordinating its adoption of 45 CFR Part 180, CMS-1717-F2, the Centers for Medicare and Medicaid Services hospital price transparency rule (the “**Rule**”) requiring certain healthcare providers to disclose their pricing to patients for a number of standard provider service offerings.

This Danbury Hospital consumer shoppable file (the “**File**”) provides cost estimates for services that can be scheduled in advance that may be of more common interest for consumers. The database used to construct the File uses actual prior service charges billed by Danbury Hospital to provide an estimate for the same to future patients.

Please note, the estimate for any service provided is limited to disclosure of Danbury Hospital standard charges for that particular service. As a result, any seen or unforeseen support service expenses, or expense change based on location or other reason, for any service estimate sought, may not be accurately reflected in the results provided by in the File.

As such, Danbury Hospital makes no guaranty of any kind regarding File data. Actual service and care expenses vary pursuant to a number of factors that cannot be properly considered for every possible patient encounter.

To the maximum extent permitted by applicable law, in no event will Danbury Hospital or its vendors, suppliers or other third parties it is working with be liable for any direct, consequential, incidental, special, punitive or other damages whatsoever arising out of or in any way related to any claim regarding (i) the File, (ii) the data displayed in the File, or (iii) any other claim related to a service price estimate whether based on contract, tort, negligence, strict liability or otherwise.

If there are questions regarding the File's data, you agree to discuss it with Danbury Hospital prior to receiving any service.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$11,857
Drainage of skin abscess	VARIABLE	100%		
General procedure services	\$8,540	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$8,006
General supporting services	\$1,196	100%		
Culture othr specimn aerobic	\$80	100%		
Cultr bacteria except blood	\$97	100%		
Smear gram stain	\$70	100%		
Culture Aerobic Identify	\$172	50%		
Assay blood carbon dioxide	\$70	50%		
Assay of blood chloride	\$70	50%		
Assay of creatinine	\$62	50%		
Assay glucose blood quant	\$30	50%		
Assay of serum potassium	\$70	50%		
Assay of serum sodium	\$70	50%		
Assay of urea nitrogen	\$62	50%		
Complete cbc w/auto diff wbc	\$52	50%		
Complete cbc automated	\$49	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,443
Deb subq tissue 20 sq cm/<	\$1,278	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$831
Glucose blood test	\$162	25%		
Hbot, full body chamber, 30m	\$7,098	25%		
X-ray exam of foot	\$394	13%		
Rmvl devital tis 20 cm/<	\$560	13%		
Office/outpatient visit est	\$164	13%		
Office/outpatient visit est	\$330	13%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,416
Drain/inj joint/bursa w/o us	\$1,063	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
General supporting services	\$80	100%		
Needle localization by xray	\$975	100%		
Culture othr specimn aerobic	\$80	100%		
Cultr bacteria except blood	\$97	100%		
Smear gram stain	\$70	100%		
Body fluid cell count	\$51	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$866
Diagnostic laryngoscopy	\$512	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Office/outpatient visit new	\$354	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$5,871
Egd biopsy single/multiple	VARIABLE	100%		
General procedure services	\$4,397	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$3,160
Tissue exam by pathologist	\$1,080	100%		
General supporting services	\$22	62%		
Urine pregnancy test	\$42	23%		
Immunohisto antb 1st stain	\$292	10%		
Glucose blood test	\$18	7%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$5,897
Egd biopsy single/multiple	VARIABLE	100%		
General procedure services	\$4,397	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$3,721
Tissue exam by pathologist	\$1,080	100%		
General supporting services	\$36	76%		
Urine pregnancy test	\$42	15%		
Immunohisto antb 1st stain	\$292	12%		
Glucose blood test	\$18	3%		
Us exam abdom complete	\$863	3%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Charge Display Esoph egd dilation <30 mm, CPT® 43249

Payer United Medicare Managed Care

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$7,722
Esoph egd dilation <30 mm	\$3,620	100%		
General procedure services	\$904	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$1,713
Tissue exam by pathologist	\$1,440	97%		
Egd biopsy single/multiple	\$0	97%		
General supporting services	\$249	90%		
Colonoscopy and biopsy	\$3,620	31%		
Glucose blood test	\$18	21%		
Colonoscopy w/lesion removal	\$0	21%		
Special stains group 1	\$99	10%		
Colonoscopy submucous njx	\$2,790	7%		
Assay of magnesium	\$49	3%		
Assay of serum potassium	\$35	3%		
Assay blood carbon dioxide	\$35	3%		
Assay of blood chloride	\$35	3%		
Assay of creatinine	\$31	3%		
Assay glucose blood quant	\$30	3%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$10,692
Colonoscopy and biopsy	VARIABLE	100%		
General procedure services	\$8,377	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$4,148
Tissue exam by pathologist	\$2,160	100%		
General supporting services	\$89	82%		
Urine pregnancy test	\$42	45%		
Glucose blood test	\$18	18%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$6,254
Colonoscopy w/lesion removal	VARIABLE	100%		
General procedure services	\$4,864	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$3,635
Tissue exam by pathologist	\$720	100%		
General supporting services	\$107	77%		
Glucose blood test	\$18	7%		
Urine pregnancy test	\$42	5%

Charge Display Colonoscopy w/lesion removal, CPT® 45385

Payer Aetna

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$5,962
Colonoscopy w/lesion removal	VARIABLE	100%		
General procedure services	\$4,804	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$4,740
Tissue exam by pathologist	\$720	100%		
General supporting services	\$100	74%		
Urine pregnancy test	\$42	7%		
Glucose blood test	\$18	7%		
Immunohisto antb 1st stain	\$292	3%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$56,090
Major Hip And Knee Joint Replacement Or Reattachment Of Lower Extremity Without Mcc	\$56,090	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$23,876
Laparoscopic cholecystectomy	VARIABLE	100%		
General procedure services	\$19,351	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$16,122
General supporting services	\$3,149	100%		
Tissue exam by pathologist	\$410	100%		
Tx/pro/dx inj new drug addon	\$878	17%		
Tx/pro/dx inj same drug adon	\$351	17%		
Assay blood carbon dioxide	\$70	13%		
Assay of blood chloride	\$70	13%		
Assay of creatinine	\$62	13%		
Assay glucose blood quant	\$60	13%		
Assay of lipase	\$59	13%		
Assay alkaline phosphatase	\$31	13%		
Assay of serum potassium	\$70	13%		
Assay of serum sodium	\$70	13%		
Alanine amino (ALT) (SGPT)	\$42	13%		
Assay of urea nitrogen	\$62	13%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,772
Abd paracentesis w/imaging	\$2,072	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$2,530
General supporting services	\$485	100%		
Ther/proph/diag iv inf init	\$625	85%		
Albumin (human), 25%, 50ml	\$443	85%		
Cytopath cell enhance tech	\$137	35%		
Body fluid cell count	\$51	32%		
Glucose Other Fluid	\$35	32%		
Assay of protein other	\$29	32%		
Culture othr specimn aerobic	\$80	32%		
Cultr bacteria except blood	\$97	32%		
Smear gram stain	\$70	32%		
Lactate (LD) (LDH) enzyme	\$51	29%		
Assay of urine albumin	\$30	29%		
Tissue exam by pathologist	\$370	26%		
Office/outpatient visit est	\$164	6%		
Alanine amino (ALT) (SGPT)	\$42	3%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$9,362
Fragmenting of kidney stone	\$7,298	100%		
General procedure services	\$1,644	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$3,373
General supporting services	\$27	67%		
Glucose blood test	\$18	44%		
X-ray exam abdomen 1 view	\$443	22%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$9,527
Cystoscopy and treatment	VARIABLE	100%		
General procedure services	\$8,097	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$4,260

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$23,004
Cysto/uretero w/lithotripsy	VARIABLE	100%		
General procedure services	\$16,499	100%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$87,535
Laparo radical prostatectomy	\$64,068	100%		
General procedure services	\$7,792	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
General supporting services	\$7,730	100%		
Routine venipuncture	\$36	100%		
Assay blood carbon dioxide	\$35	100%		
Assay of blood chloride	\$35	100%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,354
Inj foramen epidural l/s	VARIABLE	100%		
General procedure services	\$2,129	100%		*
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
General supporting services	\$175	100%		
Glucose blood test	\$18	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$12,503
Cataract surgery complex	\$6,942	100%		
General procedure services	\$904	100%		*
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
General supporting services	\$3,940	100%		
Glucose blood test	\$18	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,454
Ct head/brain w/o dye	\$1,454	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$200

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,824
Ct orbit/ear/fossa w/o dye	\$1,824	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$305

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$233

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,515
Ct angiography neck	\$3,459	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$233

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,883
Mr Angiography Head W/O Dye	\$1,941	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$724
Mri brain stem w/o dye	\$1,849	33%

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,849
Mri brain stem w/o dye	\$1,849	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$131
X-ray exam chest 1 view	\$131	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$356
X-ray exam chest 2 views	\$356	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$47
X-ray exam of sinuses	\$654	2%		
Comprehen metabolic panel	\$38	2%		
Lipid panel	\$71	2%		
Assay of troponin quant	\$71	2%		
Complete cbc w/auto diff wbc	\$52	2%		
Fibrin degradj d-dimer	\$88	2%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,586
Ct thorax w/dye	\$2,541	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$554
X-ray exam neck spine 2-3 vw	\$554	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$68
X-ray exam chest 2 views	\$356	17%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$543
X-ray exam l-s spine 2/3 vws	\$543	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$413

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$882
X-ray exam l-2 spine 4/>vws	\$882	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,588
Ct lumbar spine w/o dye	\$1,588	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$271
3d render w/intrp postproces	\$524	33%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,290
Mri neck spine w/o dye	\$3,290	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$468
Mri brain stem w/o dye	\$1,849	14%		
Mri lumbar spine w/o dye	\$3,666	9%		
Ct angiography neck	\$3,459	5%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Assay of ck (cpk)	\$63	17%		
Assay of creatinine	\$31	17%		
Assay alkaline phosphatase	\$31	17%		
Alanine amino (ALT) (SGPT)	\$42	17%		
Complete cbc w/auto diff wbc	\$52	17%		
C-reactive protein	\$113	17%		
Office/outpatient visit est	\$164	17%		
Office consultation	\$469	17%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Payer United Medicare Managed Care

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,926
Mri lumbar spine w/o & w/dye	\$3,754	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$446
X-ray exam l-2 spine 4/>vws	\$882	4%		
Mri chest spine w/o & w/dye	\$3,754	4%		
Mri pelvis w/o & w/dye	\$3,641	4%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,843
Mri pelvis w/o & w/dye	\$3,641	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$867

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$425
X-ray exam of shoulder	\$425	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$79
X-ray exam chest 2 views	\$356	11%		
X-ray exam neck spine 2-3 vw	\$554	11%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$432
X-ray exam of wrist	\$432	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$82

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$2,893
Ct upper extremity w/o dye	\$1,654	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$218
Ct thorax w/o dye	\$1,953	50%		
3d render w/intrp postproces	\$524	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$288
X-ray exam hip uni 2-3 views	\$288	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$73
X-ray exam thoracolmb 2/> vw	\$618	17%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$390
X-ray exam of knee 1 or 2	\$390	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$482
X-ray exam knee 4 or more	\$482	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$116
X-ray exam of hand	\$974	10%		
X-ray exam of ankle	\$476	10%		
X-ray exam of foot	\$394	10%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$394
X-ray exam of foot	\$394	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$67
X-ray exam of hand	\$974	6%		
Comprehensive metabolic panel	\$38	6%		
Complete cbc w/auto diff wbc	\$52	6%		
Rbc sed rate automated	\$25	6%		
Antinuclear antibodies (ANA)	\$52	6%		
C-reactive protein	\$113	6%		
Lyme disease antibody	\$290	6%		
Lyme disease antibody	\$32	6%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,173
Mri jnt of lwr extre w/o dye	\$3,173	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$443
X-ray exam abdomen 1 view	\$443	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$72

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,605
Ct abdomen w/o & w/dye	\$3,191	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$416
Ct thorax w/o dye	\$1,953	20%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,147
Ct abd & pelvis w/o contrast	\$3,147	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$352
X-ray exam abdomen 1 view	\$443	22%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.
