Charge Display Ct abd & pelvis w/o contrast, CPT® 74176

Payer Anthem Managed Medicare

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$5,100
Ct abd & pelvis w/o contrast	\$3,147	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$305
Ct thorax w/o dye	\$1,953	57%		
X-ray exam abdomen 1 view	\$443	14%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$4,035
Ct abd & pelv w/contrast	\$3,621	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$795
Ct thorax w/dye	\$2,541	26%		
Electrolyte panel	\$23	17%		
Bilirubin total	\$63	17%		
Assay of creatinine	\$31	17%		
Assay glucose blood quant	\$30	17%		
Assay of lipase	\$59	17%		
Assay alkaline phosphatase	\$31	17%		
Transferase (AST) (SGOT)	\$29	17%		
Alanine amino (ALT) (SGPT)	\$42	17%		
Assay of urea nitrogen	\$31	17%		
Complete cbc w/auto diff wbc	\$52	17%		
Emergency dept visit	\$1,915	17%		
General supporting services	\$5	13%		
Ther/proph/diag inj iv push	\$351	13%		
Assay of lactic acid	\$64	9%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$5,274

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,813
Mri abdomen w/o & w/dye	\$3,641	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$965
Contrast x-ray esophagus	\$965	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$233

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$944
X-ray upper gi delay w/o kub	\$944	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$220

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,148
Contrast x-ray exam of colon	\$1,148	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$723
Us exam of head and neck	\$723	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$448

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Breast tomosynthesis bi	\$75	50%		
Breast tomosynthesis bi	\$75	20%		
Dx mammo incl cad bi	\$526	20%		
Dx mammo incl cad uni	\$438	10%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$524
Ultrasound breast limited	\$350	100%	Average Negotiated Charge (Payment) / Visit	\$229
Supporting Service Description	Average Gross Charges	Patient Utilization %

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$863
Us exam abdom complete	\$863	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$226
Complete cbc w/auto diff wbc	\$52	2%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$403
Echo exam of abdomen	\$403	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$152

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$971
Us exam abdo back wall comp	\$971	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$320
Us exam pelvic limited	\$538	15%		
Us exam pelvic complete	\$901	11%		
X-ray exam abdomen 1 view	\$443	3%		
Us exam of head and neck	\$723	3%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,026
Transvaginal us non-ob	\$1,026	100%	Average Negotiated Charge (Payment) / Visit	\$274
Supporting Service Description	Average Gross Charges	Patient Utilization %

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$901
Us exam pelvic complete	\$901	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$317
Us exam abdo back wall comp	\$971	33%		
Assay of psa total	\$104	4%		
Routine venipuncture	\$18	4%

The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$601
Dx mammo incl cad bi	\$526	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$601
Breast tomosynthesis bi	\$75	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$538
Scr mammo bi incl cad	\$538	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$241
Breast tomosynthesis bi	\$75	32%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$579
Dxa bone density axial	\$579	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$130
Scr mammo bi incl cad	\$538	16%		
Breast tomosynthesis bi	\$75	9%		
Ultrasound breast complete	\$565	2%		
Dxa bone density/peripheral	\$526	2%		
Culture othr specimn aerobic	\$80	2%		
Culture Aerobic Identify	\$86	2%		
Microbe susceptible mic	\$35	2%		
Smear gram stain	\$70	2%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$3,211
Radiation treatment aid(s)	\$880	100%	Average Negotiated Charge (Payment) / Visit	\$119
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Set radiation therapy field	\$2,331	60%		
Radiation treatment delivery	\$3,400	20%		
Office/outpatient visit est	\$164	10%		
Telethx isodose plan cplx	\$989	10%		
Special teletx port plan	\$1,069	10%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$16,897
Ntsty modul rad tx dlvr smpl	\$15,695	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$3,138
Radiation physics consult	\$1,202	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,884
Bone imaging whole body	\$1,760	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$532
Ct thorax w/dye	\$2,541	17%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$9,456
Ht muscle image spect mult	\$5,098	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$878
Cardiovascular stress test	\$1,392	100%		
Bilirubin total	\$63	7%		
Assay blood carbon dioxide	\$35	7%		
Assay of blood chloride	\$35	7%		
Assay of creatinine	\$31	7%		
Assay glucose blood quant	\$30	7%		
Assay of magnesium	\$49	7%		
Assay of natriuretic peptide	\$134	7%		
Assay alkaline phosphatase	\$31	7%		
Assay of serum potassium	\$35	7%		
Assay of serum sodium	\$35	7%		
Assay thyroid stim hormone	\$81	7%		
Alanine amino (ALT) (SGPT)	\$42	7%		
Assay of troponin quant	\$213	7%		
Assay of urea nitrogen	\$31	7%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$9,250
Pet image w/ct full body	\$7,416	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$81
Metabolic panel total ca	\$29	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Complete cbc w/auto diff wbc	\$52	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$275
Comprehensive metabolic panel	\$38	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$56
Complete cbc w/auto diff wbc	\$52	79%		
Routine venipuncture	\$18	35%		
Lipid panel	\$71	21%		
Assay thyroid stim hormone	\$81	21%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$284
Lipid panel	\$71	100%	Average Negotiated Charge (Payment) / Visit	\$49
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Routine venipuncture	\$18	63%		
Comprehensive metabolic panel	\$38	56%		
Complete cbc w/auto diff wbc	\$52	52%		
Glycosylated hemoglobin test	\$113	41%		
Assay thyroid stim hormone	\$81	26%		
Transferase (AST) (SGOT)	\$29	19%		
Metabolic panel total ca	\$29	15%		
Assay of serum potassium	\$35	11%		
Assay of serum sodium	\$35	11%		
Assay blood carbon dioxide	\$35	11%		
Assay of blood chloride	\$35	11%		
Assay of creatinine	\$31	11%		
Alanine amino (ALT) (SGPT)	\$42	11%		
Assay of urea nitrogen	\$31	11%		
Hepatitis c ab test	\$115	11%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$100
Urinalysis auto w/scope	\$26	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$13
Urine culture/colony count	\$74	61%		
Culture Aerobic Identify	\$86	39%		
Microbe susceptible mic	\$35	35%		
Metabolic panel total ca	\$29	4%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Comprehensive metabolic panel	\$38	38%		
Lipid panel	\$71	31%		
Complete cbc w/auto diff wbc	\$52	31%		
Assay of psa total	\$104	23%		
Routine venipuncture	\$18	15%		
Antinuclear antibodies (ANA)	\$52	8%		
C-reactive protein	\$113	8%		
Assay of psa free	\$51	8%		
Assay of total testosterone	\$55	8%		
Assay thyroid stim hormone	\$81	8%		
Assay of triglycerides	\$49	8%		
Assay of blood/uric acid	\$26	8%		
Assay of apolipoprotein	\$49	8%		
Assay bld/serum cholesterol	\$49	8%		
Assay of lipoprotein	\$49	8%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Assay of blood/uric acid	\$26	11%		
Assay of ferritin	\$74	11%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$167
Bilirubin direct	\$37	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	*
Routine venipuncture	\$18	100%		
Bilirubin total	\$63	100%		
Complete cbc automated	\$49	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$345
Vitamin d 25 hydroxy	\$163	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Comprehensive metabolic panel	\$38	100%		
Complete cbc w/auto diff wbc	\$52	100%		
Ccp antibody	\$52	100%		
Rheumatoid factor quant	\$40	100%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$947
Assay of ck (cpk)	\$63	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$192
Routine venipuncture	\$18	100%		
Lyme disease antibody	\$55	100%		
Ehrlichia Antibody	\$99	50%		
Protozoa antibody nos	\$116	50%		
Hepatitis c ab test	\$115	50%		
Hiv-1 ag w/hiv-1 & hiv-2 ab	\$157	50%		
Comprehen metabolic panel	\$38	50%		
Assay of ferritin	\$74	50%		
Assay of folic acid serum	\$134	50%		
Assay of magnesium	\$49	50%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$105
Assay of creatinine	\$31	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$40
Routine venipuncture	\$18	100%		
Assay of urea nitrogen	\$31	100%		
Electrolyte panel	\$23	50%		
Urinalysis auto w/scope	\$26	25%		
Urine culture/culture count	\$74	25%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$431
Vitamin B-12	\$129	100%	Average Negotiated Charge (Payment) / Visit	\$122
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Comprehensive metabolic panel	\$38	80%		
Assay thyroid stim hormone	\$81	80%		
Complete cbc w/auto diff wbc	\$52	80%		
Organic acid single quant	\$100	40%		
Lipid panel	\$71	40%		
Assay of iron	\$88	40%		
Iron binding test	\$64	40%		
Lactate (LD) (LDH) enzyme	\$51	20%		
Assay nephelometry not spec	\$180	20%		
Assay of ferritin	\$74	20%		
Assay iga/igd/igg/igm each	\$276	20%		
Glycosylated hemoglobin test	\$113	20%		
Protein e-phoresis serum	\$59	20%		
C-reactive protein	\$113	20%		
Routine venipuncture	\$18	20%

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$448
Assay of ferritin	\$74	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$116
Comprehensive metabolic panel	\$38	60%		
Lipid panel	\$71	60%		
Vitamin d 25 hydroxy	\$163	40%		
Glycosylated hemoglobin test	\$113	40%		
Assay of iron	\$88	40%		
Iron binding test	\$64	40%		
Assay thyroid stim hormone	\$81	40%		
Complete cbc w/auto diff wbc	\$52	40%		
Culture Aerobic Identify	\$86	20%		
Urine culture/colony count	\$74	20%		
Microbe susceptible mic	\$35	20%		
Vitamin B-12	\$129	20%		
Urinalysis auto w/scope	\$26	20%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Glycosylated hemoglobin test	\$113	20%		
Lactate (LD) (LDH) enzyme	\$51	20%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$883
Assay iga/igd/igg/igm each	\$184	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	
Routine venipuncture	\$18	100%		
Comprehen metabolic panel	\$38	100%		
Alpha-1-antitrypsin total	\$40	100%		
Alpha-1-antitrypsin pheno	\$44	100%		
Angiotensin I enzyme test	\$177	100%		
Vitamin d 25 hydroxy	\$163	100%		
Assay of ige	\$50	100%		
Complete cbc w/auto diff wbc	\$52	100%		
Rbc sed rate automated	\$25	100%		
Antinuclear antibodies (ANA)	\$52	100%		
Rheumatoid factor quant	\$40	100%

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$18
Glucose blood test	\$18	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$222
Glycosylated hemoglobin test	\$113	100%	Average Negotiated Charge (Payment) / Visit	\$42
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Lipid panel	\$71	64%		
Comprehensive metabolic panel	\$38	55%		
Assay thyroid stim hormone	\$81	36%		
Complete cbc w/auto diff wbc	\$52	36%		
Vitamin d 25 hydroxy	\$163	36%		
Routine venipuncture	\$18	36%		
Metabolic panel total ca	\$29	27%		
Assay of psa total	\$104	18%		
Assay of free thyroxine	\$86	9%		
Assay of ck (cpk)	\$63	9%		
Vitamin B-12	\$129	9%		
Assay of magnesium	\$49	9%		
Hepatitis c ab test	\$115	9%		
Transferase (AST) (SGOT)	\$29	9%		
Alanine amino (ALT) (SGPT)	\$42	9%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$530
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$93
Immunoassay nonantibody	\$162	100%		
Routine venipuncture	\$18	86%		
Comprehensive metabolic panel	\$38	71%		
Complete cbc w/auto diff wbc	\$52	71%		
Assay iga/igd/igg/igm each	\$92	57%		
Assay of lipase	\$59	43%		
Assay of amylase	\$51	43%		
Assay thyroid stim hormone	\$81	43%		
Prothrombin time	\$25	29%		
Antinuclear antibodies (ANA)	\$52	29%		
Fluorescent antibody screen	\$81	29%		
Assay of ferritin	\$74	14%		
Assay for calprotectin fecal	\$493	14%		
Assay of free thyroxine	\$86	14%		
Acute hepatitis panel	\$326	14%		
Alpha-1-antitrypsin total	\$40	14%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$1,449
Assay of iron	\$88	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$340
Routine venipuncture	\$27	100%		
Alpha-1-antitrypsin total	\$40	50%		
Assay three catecholamines	\$76	50%		
Assay of ceruloplasmin	\$49	50%		
Assay of urine creatinine	\$70	50%		
Assay of estradiol	\$295	50%		
Assay of ferritin	\$74	50%		
Assay of progesterone 17-d	\$83	50%		
Assay of magnesium	\$49	50%		
Assay of metanephrides	\$73	50%		
Assay of phosphorus	\$37	50%		
Assay of somatomedin	\$67	50%		
Assay thyroid stim hormone	\$81	50%		
Complete cbc w/auto diff wbc	\$52	50%		
Antinuclear antibodies (ANA)	\$52	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$316
Lactate (LD) (LDH) enzyme	\$51	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$97
Comprehensive metabolic panel	\$38	100%		
Complete cbc w/auto diff wbc	\$52	100%		
Prothrombin time	\$25	25%		
Lyme disease antibody	\$32	25%		
Hiv-1 ag w/hiv-1 & hiv-2 ab	\$157	25%		
Detect agent nos dna amp	\$348	25%		
Carcinoembryonic antigen	\$68	25%		
Assay of iron	\$88	25%		
Iron binding test	\$64	25%		
Assay of psa total	\$104	25%		
Assay thyroid stim hormone	\$81	25%		
Routine venipuncture	\$18	25%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$695
Assay of parathormone	\$252	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$266
Metabolic panel total ca	\$29	50%		
Unlisted maaa	\$489	50%		
Assay of serum albumin	\$42	50%		
Vitamin d 25 hydroxy	\$163	50%		
Assay of calcium	\$81	50%		
Assay thyroid stim hormone	\$81	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$104
Assay of psa total	\$104	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$204
Assay of psa free	\$51	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$49
Routine venipuncture	\$18	100%		
Assay of psa total	\$104	100%		
Assay of urea nitrogen	\$31	50%		
Assay of creatinine	\$31	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$725
Protein e-phoresis serum	\$59	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$132
Assay iga/igd/igg/igm each	\$276	100%		
Assay nephelometry not spec	\$180	100%		
Comprehen metabolic panel	\$38	100%		
Complete cbc w/auto diff wbc	\$52	100%		
Routine venipuncture	\$18	50%		
Assay of beta-2 protein	\$63	50%		
Assay of urine creatinine	\$70	50%		
Assay of protein urine	\$29	50%		
Protein e-phoresis/urine/csf	\$59	50%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$185
Assay of free thyroxine	\$86	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$32
Assay thyroid stim hormone	\$81	100%		
Routine venipuncture	\$18	33%		
Comprehensive metabolic panel	\$38	33%		
Glycosylated hemoglobin test	\$113	33%

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$387
Assay thyroid stim hormone	\$81	100%		
Supporting Service Description	Average Gross Charges	Patient Utilization %	Average Negotiated Charge (Payment) / Visit	\$75
Comprehensive metabolic panel	\$38	79%		
Lipid panel	\$71	58%		
Complete cbc w/auto diff wbc	\$52	58%		
Routine venipuncture	\$18	53%		
Glycosylated hemoglobin test	\$113	42%		
Vitamin d 25 hydroxy	\$163	37%		
Urinalysis auto w/o scope	\$7	26%		
Assay of psa total	\$104	11%		
Vitamin B-12	\$129	11%		
Complete cbc automated	\$49	11%		
Assay of folic acid serum	\$134	5%		
Assay of GGT	\$57	5%		
Assay of gonadotropin (fsh)	\$200	5%		
Assay of gonadotropin (lh)	\$211	5%		
Assay of blood/uric acid	\$26	5%		

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$396
Transferase (AST) (SGOT)	\$29	100%	Average Negotiated Charge (Payment) / Visit	*
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Routine venipuncture	\$18	100%		
Lipid panel	\$71	100%		
Assay of ferritin	\$74	100%		
Assay of iron	\$88	100%		
Iron binding test	\$64	100%		
Complete cbc w/auto diff wbc	\$52	100%

We hope that you find the information in this report helpful, however, it is always best to consult hospital or insurance representatives to gain a better understanding of what financial considerations exist for proposed services. Please recognize that this information does not represent any binding agreement or obligation between parties but is intended to be used for informational purposes. Your specific costs might be higher or lower depending on actual services rendered, as well as, the accompanying costs for physician/professional services as these are not included in this estimate. Each patient is responsible for the financial obligations and pre-authorizations as required by their insurance coverage so discussions with insurance or hospital representatives is highly encouraged prior to care.

UNDERSTANDING YOUR VISIT

The charge profile below details the primary procedure and other common additional services that might accompany your visit. Often your visit will only include your primary service. Other times, the primary service might be accompanied by supporting services. You can see the percentage of times patients typically utilize these additional services.

UNDERSTANDING YOUR PAYMENT

Hospitals bill "gross charges" that are the same for all patients. The hospital will then work with payers and patients to discount these "gross charges" based on different types of coverage and eligibility. The information below will help you understand the **estimated payment** for your visit. Your specific out of pocket responsibility would be a portion of the "average payment" amount based on your specific plan coverage and year to date expenditures.

Main Service Description	Average Gross Charges	Patient Utilization %	Average Gross Charge / Visit	\$298
Alanine amino (ALT) (SGPT)	\$42	100%	Average Negotiated Charge (Payment) / Visit	\$74
Supporting Service Description	Average Gross Charges	Patient Utilization %		
Metabolic panel total ca	\$29	60%		
Lipid panel	\$71	60%		
Glycosylated hemoglobin test	\$113	60%		
Routine venipuncture	\$18	40%		
Assay glucose blood quant	\$30	40%		
Transferase (AST) (SGOT)	\$29	40%		
Assay alkaline phosphatase	\$31	20%		
Assay of serum potassium	\$35	20%		
Assay of psa total	\$104	20%		
Assay of serum sodium	\$35	20%		
Assay dipropylacetic acid tot	\$108	20%		
Acetone assay	\$45	20%		
Assay blood carbon dioxide	\$35	20%		
Assay of blood chloride	\$35	20%		
Assay of creatinine	\$31	20%
